Bence Tóth

Business Analyst & Tech Writer

Budapest, Hungary · linkedin.com/in/tothbenceistvan · github.com/Mikemilligan93

I'm a Senior Business Analyst and tech writer at Mito in Budapest. I sit between clients and development teams: I find out what the business really needs, and write it down so that designers, developers and testers can build it. I have also run projects end to end, so I know what happens after the handover.

EXPERIENCE

Senior IT Business Analyst

Oct 2025 – Present

Mito Group · Budapest · Hybrid

- Leading business analysis and functional specification work on client projects

IT Business Analyst

May 2023 – Oct 2025

Mito Group · Budapest

- Bridging the gap between business needs and tech solutions
- Facilitating communication between business stakeholders and technical teams (frontend, backend, QA) to keep everyone aligned on project goals
- Creating consistent and detailed technical documentation
- Analysing the client's business needs
- Collaborating closely with UX/UI design teams on user-friendly solutions that meet both technical and design standards
- Improving workshop techniques and information channels

IT Business Analyst

Jun 2021 – May 2023

it4all Hungary · Budapest

- Gathering business requirements from clients; managing and prioritising the product backlog (Azure DevOps)
- End-to-end project management, from the business proposal to the end of the support period
- Coordinating a team of developers
- Writing technical, process and user documentation
- Creating BPMN and UML diagrams (Visio, Lucidchart)
- Designing lo-fi wireframes and UI (Figma)

Financial Reporting Officer – Liquidity

Oct 2020 – Jun 2021

Citi · Budapest

- CRD IV daily liquidity reporting for the largest entity, Citibank Europe plc
- Taking part in an RPA project: process mapping and UAT testing (Knime)
- Process simplification through automation (mainly in Excel)

Business Analyst – Data & Analytics

Sep 2019 – Oct 2020

Diageo · Budapest

- Providing regular and ad-hoc reports for the Source-to-Pay (STP) team
- Supporting the data warehouse developers in BI projects (Power BI)
- Designing solutions for incoming reporting demands
- Process simplification (UiPath)

Business Analyst – L&G Tool Development (part-time internal project)

Jan 2020 – Apr 2020

Diageo · Budapest

- Business analyst on the development of a new facility management tool
- Process mapping and redesign; writing user stories and maintaining the product backlog
- Gathering business requirements from internal stakeholders
- Coordinating daily stand-ups with the developer team
- Facilitating user training

Bank Operations Analyst

Apr 2018 – Sep 2019

Diageo · Budapest

- Managing Diageo's external facilities (guarantees, letters of credit) at partner banks
- Owning yearly audit projects (yearly review of external facilities, bank account completeness)
- Taking part in Lean Six Sigma projects
- Preparing the weekly cash flow forecasts
- Admin of the Loans & Guarantees tool: uploading and editing facilities, maintaining and cleansing the database
- Supporting the team in various cash projects

Bank Operations Trainee

Nov 2017 – Apr 2018

Diageo · Budapest

- Supporting the Bank Operations Centre in various cash-related projects
- Backup admin of the Loans & Guarantees tool
- Supporting the yearly audit projects of the Bank Operations Centre (e.g. account dormancy check, bank account completeness)
